

SIMPLY ELEGANT

## The Caliber LRCs. Safe, Strong, Seaworthy. And now...

**S**imply Elegant. That's the best way to describe the new Caliber LRC line of yachts. There is a new feeling of warmth one immediately experiences upon entering the cabin. A feeling only the copious use of the finest teak and soft headliner materials can bring.

Now what sets a Caliber apart from the fleet of her rivals? Her swiftness? Her seaworthiness and durability? Her exceptional stability? Or the coziness of her interior? As Caliber owners still know, it is the artful combination of all these qualities, which enable a Caliber to feel and perform beyond the limits that constrain so many others.

So can a single boat have it all? The Caliber does. The Caliber is fresh and graceful, without a hint of trendiness. She'll be every bit as attractive many years from now, long after today's flashier designs have been forgotten.
