

May 28. 2014

Dear George,

We wanted to put in writing our respect for you as a Caliber builder and a Caliber broker. Our relationship with you began in 1986 at the Newport Rhode Island boat show where we first met you and subsequently ordered a 1987 33 foot Caliber which we called Hydro-Therapy. You have always been there for us, answered any and all questions and sent us diagrams and schematics when we wanted to do upgrades ourselves. In representing us as our broker you were always available to answer our many questions and although our broker/seller relationship was one of long distance you managed to find a buyer who was interested in a quality sailboat and found HydroTherapy to his liking. We will miss our 27 year partnership. Rest assured we would recommend you to anyone who would ask; feel free to share our e-mail address with anyone who might want to talk to us about your Caliber brokerage.

Sincerely and Fondly,
Carol and Mike Guay
Caliber #3322 Hydro Therapy
