

September 14, 2015

Dear George,

As new sailors and owners of our first cruising boat, we want to say thank you for the extensive knowledge you have shared and your continuous support and patience for our new endeavor.

From the very first phone call, that probably lasted 3 hours, and after having dealt with several other brokers, we knew that we had made the right choice to work with you. At that time, we were overwhelmed by the choices in cruising sailboats. With your help we were able to look at our options from logical standpoint of design, construction, safety, cost and utility. The countless hours of education were invaluable, and very much appreciated.

In addition to referring us to other Caliber owners for information, you arranged for us to meet with the owners of Sea Kite during our holiday in the BVI's, even as we were just beginning our search. This was an incredible opportunity that would not have been possible without your tenacity and commitment.

Once we had made our decision to move forward with the purchase of Sea Kite, despite being a sellers and buyers broker we always felt our best interest at heart. Having no buying experience, you efficiently guided us through that complex process. Your experience and knowledge of these transactions again proved to us we were working with the right broker. We were always kept informed of communication with the sellers, which posed challenging, as they were French Canadians and navigating back from the Caribbean at the time.

Finally, we appreciate all the on-going information and support that you have provided us since the purchase with regards to Caliber design and electrical/mechanical system, as well as other aspects of sailboat ownership.

As we prepare to become full-time cruisers, we are confident in the quality of Caliber boats. At the same time, as issues arise, we feel fortunate to have you as a resource. Thanks for building a great boat and maintaining a network of Caliber owners past and present.

Mike and Nancy Magnine
